PART 1, ASBESTOS ABATEMENT DETAIL SHEET INSTRUCTIONS		Page
1. Purpose		1
2. Applicability		1
3. References		1
4. Explanation of Abbreviations.		1
5. Background: Guideline Development		1
6. Relative Hazard and Risk Assessment		2
7. Response Action Options		3
8. Abatement Decision Alternatives		4
9. Work Area Containment		5
10. Respiratory Protection		8
11. Guideline Application: Preparation of Contract Documents		8
12. Administrative Considerations		16
13. Containment Area Considerations		21
14. Response Action Selection		26
15. Abatement Design		28
16. Replacement Design		30
17. Cost Estimating		30
Figure 1. Notification of Demolition and Renovation Sample Format		17
Figure 2. Waste and Shipment Record Sample Format		22
Table 1. Recommended Respirator Selection for Protection Against Asbestos		9
Table 2. Asbestos Abatement Setup Details		10
Table 3. Response Action Details		11
Table 4. Response Action Detail Sheets By Abatement Method		13
Table 5. Final Air Clearance Requirements		20
 PART 2, SETUP DETAILS		
	Sheet	Page
Air lock	1	31
Installation of critical barrier and full containment area (for carpeted floors)	2	32
Installation of critical barrier and full containment area (for hard floor surfaces)	3	33
Installation of critical barrier and full containment area (for vinyl tile floors)	4	34
Single bulkhead containment area	5	35
Double bulkhead containment area	6	36
Mini-containment area	7	37
Ventilation of containment area and decontamination unit, using HEPA filters	8	38
Containers—double bagging	9A	39

Table of Contents—Continued

PART 2, SETUP DETAILS—Continued	Sheet	Page
Containers—leak-tight wrapping	9B	40
Containers—corrugated cardboard boxes	9C	41
Glove bag	10	42
Area warning signs and warning tape	11	43
Respiratory protection table	12	44
Protective clothing	13	45
Disposal container label	14	46
Decontamination unit signage	15	47
Preparation of full containment area for final clearance (for carpeted floors)	16	48
Preparation of full containment area for final clearance (for hard-surfaced floors)	17	49
Preparation of containment area for final clearance (for vinyl tile floors)	18	50
Certification of final cleaning and visual inspection	19	51
Load-out unit floor plan	20	52
Modified containment area	21	53
Decontamination unit floor plan	22	54
Decontamination unit piping details	23	55
Temporary equipment enclosure	24	56
Access tunnel	25	57
Asbestos power vacuum collection and removal system	26	58
Cleaning and storage	27	59
Structural critical barrier	28	60
PART 3, RESPONSE ACTION DETAILS	Sheet	Page
Bridging encapsulation of troweled wall plaster	29	61
Repair of troweled wall plaster on stud wall	30	62
Repair of troweled ceiling or wall plaster on masonry	31	63
Removal of troweled wall plaster on masonry	32	64
Removal of troweled wall plaster on stud wall	33	65
Bridging encapsulation of solid or acoustical ceiling plaster	34	66
Removal of troweled ceiling plaster on structural substrate	35	67
Removal of troweled ceiling plaster on hung ceiling	36	68
Enclosure of acoustical wall plaster on masonry wall	37	69
Bridging encapsulation of acoustical wall plaster	38	70
Penetrating encapsulation of acoustical wall and ceiling plaster	39	71
Combination encapsulation of acoustical wall and ceiling plaster	40	72

Table of Contents—Continued

PART 3, RESPONSE ACTION DETAILS—Continued	Sheet	Page
Repair of acoustical ceiling or wall plaster	41	73
Removal of acoustical wall plaster on masonry	42	74
Enclosure of acoustical ceiling plaster, spray-on fireproofing, and thermal insulation	43	75
Removal of acoustical ceiling plaster (nonasbestos substrate)	44	76
Removal of miscellaneous asbestos-containing materials	45	77
Removal of asbestos decorative paint on plaster	46	78
Removal of light curtain	47	79
Removal of interior asbestos cement, fiberboard, and drywall panels	48	80
Bridging encapsulation of asbestos cement wall, fiberboard, and drywall panels	49	81
Removal of asbestos-contaminated masonry for masonry chimney	50	82
Removal of asbestos-contaminated masonry wall or thermal insulation	51	83
Removal of suspended asbestos cement ceiling tile	52	84
Removal of asbestos cement architectural products	53	85
Removal of suspended acoustical ceiling tile	54	86
Removal of glued-on acoustical ceiling and wall tile	55	87
Repair of vinyl asbestos tile adhered to concrete floor system	56	88
Removal of vinyl asbestos tile adhered to concrete floor system by asbestos-containing adhesive	57	89
Removal of vinyl asbestos tile adhered to concrete floor system by asbestos-free adhesive	58	90
Removal of vinyl asbestos tile and chemical dissolution of asbestos-containing adhesives on concrete floor system	59	91
Repair of vinyl asbestos tile adhered to wood floor system by asbestos-containing adhesive	60	92
Removal of vinyl asbestos tile adhered to wood floor system by asbestos-containing adhesive	61	93
Removal of vinyl asbestos tile adhered to wood floor system by asbestos-free adhesive	62	94
Removal of sheet-flooring adhered to wood floor system	63	95
Removal of sheet-flooring adhered to concrete floor system by asbestos-containing adhesive	64	96
Removal of carpeting (asbestos-containing or -contaminated)	65	97
Encasement of fireproofing or thermal insulation of beams and decking	66	98
Encasement of fireproofing or thermal insulation on columns	67	99
Removal of fireproofing or thermal surface insulation	68	100
Encasement of acoustical ceiling insulation	69	101
Removal of acoustical ceiling insulation	70	102
Enclosing asbestos-contaminated soil	71	103
Penetrating encapsulation of asbestos-contaminated soil	72	104
Removal of asbestos-contaminated soil	73	105
Removal of built-up roofing and flashing	74	106

Table of Contents—Continued

PART 3, RESPONSE ACTION DETAILS—Continued	Sheet	Page
Removal of roof, shingles, and underlay	75	107
Bridging encapsulation of exterior asbestos stucco	76	108
Bridging encapsulation of interior asbestos stucco	77	109
Repair of interior asbestos stucco	78	110
Removal of exterior asbestos stucco	79	111
Repair of exterior asbestos stucco	80	112
Removal of asbestos cement siding	81	113
Removal of asbestos cement roofing	82	114
Removal of asbestos-containing walkway cover	83	115
Removal of asbestos-contaminated metal siding	84	116
Removal of asbestos cement sunscreen louvers	85	117
Repair of pipe and fitting insulation (using glove bag)	86	118
Removal of pipe insulation (using glove bag)	87	119
Removal of horizontal pipe insulation (using containment area)	88	120
Removal of pipe insulation (using mini-containment area)	89	121
Encasement of storage tank or boiler breeching	90	122
Bridging encapsulation of storage tank and boiler breeching	91	123
Repair of storage tank and boiler breeching	92	124
Removal of storage tank and boiler breeching insulation	93	125
Removal of pipe-fitting insulation (using glove bag)	94	126
Removal of asbestos-insulated electrical wiring	95	127
Removal of asbestos-insulated electrical fixture	96	128
Removal of boiler firebox insulation	97	129
Bridging encapsulation of boiler and piping gaskets	98	130
Removal of boiler and piping gaskets	99	131
Repair of duct insulation	100	132
Removal of duct insulation	101	133
Removal of asbestos cement pipe	102	134
Removal of asbestos cement ductwork	103	135
Removal of asbestos flex connector	104	136
